

## Foundation Medicine Courses in the UK

Foundation medicine courses are 6-year medical courses. Generally, they begin with 1 year of science-based teaching which prepares students who will later merge into the standard 5-year undergraduate course. More information about the structure of the course can be found on university websites respectively.

	<b>University</b>	<b>Eligibility?</b>	<b>Entry Requirements</b>
<b>A</b>	Aberdeen university	Scottish Applicants only, widening access background	Scottish Highers: AABB
<b>B</b>	Bristol University	Applicants from specific schools/colleges	BBC
<b>D</b>	Dundee University	Living in Scotland, widening access background	ABB
<b>E</b>	Edge Hill University	Applicant from specific schools, widening access background	BBB
<b>H</b>	Hull York Medical School	Contextual Data eligibility	ABB - BBC
<b>K</b>	Keele University	Applicants from specific schools, Widening access background	BBC
	King's College London	Contextual Data	ABB
<b>L</b>	Lancaster University	Widening participation criteria	AAB
	Leeds University	Widening Participation criteria	BBC
	Leicester University	Widening participation criteria	BBB
	Liverpool University	Mature students who have been out of formal education	Graduates with a Hons degrees less than 2:1
<b>M</b>	Manchester University	Applicants who have not studied 2 Science, A-Levels, Contextual data eligibility	AAA Contextual: AAB
<b>N</b>	Nottingham University	Contextual admissions criteria	BBC
	Norwich Medical School (UEA)	Contextual Criteria	BBB or ABC
<b>P</b>	University of Plymouth	Contextual Criteria	BBB
<b>S</b>	University of Southampton	Eligibility criteria	BBB
	University of St Andrews	Scottish Residents, contextual criteria	Scottish Highers: BBBB
<b>U</b>	University of Central Lancashire	International Students only	Enquire with university
